

As an American citizen, I am very concerned that the Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election is not an example of the public airwaves being used to serve the public's interest. The concept of news has been distorted and used as a way to use "my airways" for a partison political agenda.

Please see the importance of this issues as a clear and present danger in media "stolen honor".

Thank you.
